WM. H. LIPPITT, sole Agent for Wilmington, N. C. Jan. 14th. 1860-111-1t-21-12m. AYER'S AGUE CURE,

This day sworn to before me, by Naphtali Ezekiel.

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, and Billous Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of mlasmatic countries. No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its

use in any quantity.

That which protects from or prevents this disorder must Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system and prevents the develop ment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the it within the reach of everybody; and in bilious districts, where FEVER AND AGUE prevails, everybody should have it a suitable distance from the River to build on for health. I T APPEARING to the satisfaction of the Court, that the defendants are non-residents, it is therefore ordered by consequently it produces no quinine or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the mias for making Turpentine, Tar and big Timber;—a stiff soil matic poison. A great varity of disorders arise from its ir- and porous clay subsoil, the only kind that will admit of a ritation, among which are Neuralgia, Rheumatism, Gout, High state of improvement and retain it. There is on the Headache, Blindness, Tootbache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the fenced. This is one of the most valuable places in this vi-Stomach, all of which, when originating in this cause, put | cinity-within eight miles of Black River tidewater. Also, on the intermittent type, or become periodical. This "CURE" two other tracts of 122 and 250 acres of Pine Land, well expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to intrigrants and persons travelling or temporarily residing in the mala-rious districts. If taken occasionally or daily while exposed

Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that di-ease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases.—
The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cares and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. We are indebted to our friends of the Sumpter (S. U.) Watchman, for an extra containing the message of Gov. Gist, of South Carolina, to the Legislature of that State, met in extraordinary session for the appointment of Electors of President and Vice President of the United States. At this time it is a somewhat significant document, and as it is short we give it in full:

EXECUTIVE DEPARTMENT. COLUMBIA, S. C., Nov. 5, 1860.

GENTLEMEN OF THE SENATE AND HOUSE OF REPRESENTATIVES : The Act of Congress passed in the year 1846, enacts that "the Electors of President and Vice President shall be apconsidered it my duty, under the authority conferred upon me to convene the Legislature on extraordinary occasions,

Under ordinary circumstances, your duty could be soon discharged, by the election of Electors, representing the choice of the people of the State; but in view of the threatening aspect of affairs, and the strong probability of the election to the Presidency of a sectional candidate, by a party committed to the support of measures which, if carried out, will inevitably destroy our equality in the Union, and ultimately reduce the Southern States to mere provinces of a consolidated despotism, to be governed by a fixed majority in Congress, hostile to our institutions, and fatally bent upon our ruin, I would respectfully suggest that the Legislature remain in session, and take such action as will prepare the State for any emergency that may arise. That an expression of the will of the people may be manner, on fine paper, bound in BEVELED BOARDS, and obtained on a question involving such momentous conseis altogether the most POPULAR AND SALEABLE Book quences, I would earnestly recommend, that in the event of the election of Abraham Lincoln to the Presidency, a Con-

vention of the people of this State be immediately called,

to consider and determine "the mode and measure of re-

dress."
My own opinions of what the Convention should do are of little moment; but believing that the time has arrived when every one, however humble he may be, should express his opinions in unmistakable language, I am constrained to say, that the only alternative left, in my judgment, is the Sample Copies sent by Mail, post paid, on receipt of the Price, \$1 25.

Sample Wanted in every County in the United States mediately followed, if not adopted simultaneously by them, and ultimately by the entire South. The long desired co-operation of the other States, having similar institutions, for which the State has been waiting, seems to be near at hand, and, if we are true to ourselves, will soon be realized. The State has, with great unanimity, declared that she has the right peaceably to secede, and no power on earth can rightfully prevent it. If in the exercise of arbitrary power, and forgetful of the lessons of history, the Govern ment of the United States should attempt coercion, it will become our solemn duty to meet force by force; and what-ever may be the decision of the Convention representing the sovereignty of the State—and amenable to no earthly tribunal—shall, during the remainder of my administration, be carried out to the letter, regardless of any hazards that may surround its execution. I would, also, respectfully recommend a thorough reorganization of the Militia, so as to place the whole military force of the State in a position to be used at the shortest notice and with the greatest efficiency. Every man in the State, between the ages of eighteen and forty-five, should be well armed with the most effective weapons of modern warfare, and all the available means of
